Experience

[FunJoin](#) | End-to-end SaaS for activity-based operators

Product Designer *May 2021 – Jun 2026*

End-to-end product design: JTBD, CJM, USM, User Flow, CustDev, qualitative research, wireframes, prototypes, UX testing, hypothesis generation and validation.

Delivered new features directly driving client acquisition: payment plans, checkout improvements, smart forms, waitlists, applications, medical workflows, discounts, reports, data exports, and configurable product customization.

Grown payment plans adoption from 1.5% to 24.3%, increased admin-to-self-service scheduling transition from 13.6% to 52.3%, improved registration and checkout flows during a period when drop-off decreased from 36.7% to 13.5%.

Boosted design-to-development speed by 54% by redesigning a legacy design system with design tokens and integrating AI tools for rapid prototyping, analysis, and hypothesis validation.

Partnered directly with the Founder and CTO to drive product strategy, owning sprint goals and execution, facilitating planning and backlog prioritization, and managing freelance designers.
