Aleksandr Zhukov

Lead Product Designer

Lead Product Designer

FunJoin

May 2022 – Jun 2026 / 4 yrs

California, United States

As the sole Product Designer, defined the product strategy and designed cross-platform UX/UI for a B2B2C SaaS platform (Admin Panel, Customer Hub, and Employee Mobile App), streamlining bookings and operational workflows.

- UX Leadership:** Led end-to-end cross-platform UI/UX design for a B2B2C SaaS platform, delivering a seamless user experience across admin panels, customer hubs, and employee mobile applications.
- Strategic Alignment:** Partnered closely with Product Owners and Engineering to define product discovery frameworks, prioritize roadmaps, and balance technical constraints with rapid delivery.
- Core Workflows:** Architected high-complexity user journeys across critical modules, including multi-tier registration, dynamic scheduling, real-time attendance tracking, payments and billing plans, application and form management, and medical center.
- Friction Reduction:** Re-engineered complex operational flows to reduce cognitive load and simplify decision-making. Successfully decreased checkout drop-off from 36.7% to 13.5% and boosted self-scheduling adoption from 13.6% to 52.3%.
- Design Systems & Culture:** Championed design maturity across the company by establishing scalable interaction patterns, a flexible, AI-ready design system built for both human and machine interfaces, and a structured, data-informed decision-making framework.
- Ambiguity Resolution:** Translated fragmented business requirements and abstract constraints into highly structured, intuitive, and production-ready product experiences.

UX/UI Design Engineer

Onomatet | Branding & Digital Agency

May 2016 – Apr 2022 / 6 yrs

St Petersburg, Russia

Co-founded and scaled a boutique digital agency. Directed brand strategy, digital product development, and frontend engineering to deliver custom web ecosystems for startups and SMBs.

- Agency Leadership:** Managed the full product lifecycle from initial discovery and user research to final deployment, iteration, and client handoff.
- Full-Stack Design Development:** Bridged the gap between design and engineering by developing custom web apps, complex booking engines, and payment integrations; significantly reducing development cycles while ensuring absolute visual fidelity and technical feasibility.
- Strategic Consulting:** Advised founders and executives on product-market fit, service positioning, digital communication strategies, and user journey optimization.
- Process Standardization:** Created unified design and development approaches, establishing reusable frameworks that drove delivery consistency across all client projects.

Data Analysis Specialist

Carlsberg Group

Jun 2014 – May 2016 / 2 yrs

St Petersburg, Russia

Fueled strategic executive decision-making through advanced data modeling, market intelligence, and competitive benchmarking.

- Predictive Modeling:** Built robust analytical models, performance tracking dashboards, and strategic reports to guide executive leadership decisions.
- Market Intelligence:** Conducted deep-dive competitor & market trend analyses to proactively identify emerging growth vectors and mitigate operational risks.
- Data Synthesis:** Translated complex, multi-layered datasets into clear, actionable business insights for cross-functional stakeholders.

Skills & Tools

- Expertise:** Product Discovery, User Flow Mapping, Rapid Wireframing & Prototyping, Systemic Design Architecture, UX/UI Design, Quantitative Data Analysis, Competitive Intelligence, Journey Mapping, Service Design, Cross-Functional Workshops, Stakeholder Alignment, Frontend Development.
- Design Tools:** Figma, Auto Layout, ProtoPie, Adobe CC, Blender, Fusion 360, Miro
- AI-Agentic Workflows:** Claude Code, Open Code, Codex (ChatGPT), Obsidian
- Product & Dev:** Jira, Confluence, Notion, VS Code, GitHub, HTML5, CSS3, JavaScript, NodeJS, React, PHP, WordPress
